ANTIMONY

25 October 2026

Dear printer,

Thank you for taking on our first run of cards and letterheads. A few notes, so the colours come out as we mean them.

The paper colour is cream, #EEEAE0 on screen. Please match it to a drawdown on the stock we have chosen rather than converting it by formula, and send us the drawdown before the run.

The crystal in the mark is the only bright colour we use. If it cannot be printed as a clean, light sky blue on this stock, print the mark in one colour instead; the files for that are in the kit, in the folder called one-colour.

The wordmark and the mark are supplied as outlines, so no fonts are needed. Please do not redraw, stretch or recolour them.

With thanks,

Eóin Forker
Founder
